

Our product **MOUNT10 CloudDrive** (hereafter referred to as M10CD) is a service from **MOUNT10 AG**. M10CD is an easy to use sharing- and cloud-platform, hosted in Switzerland and only able to store encrypted data. With M10CD, the data connection is encrypted by SSL and transported over the public internet into the SWISS FORT KNOX. **MOUNT10** is creating the account with a username and a password. This password can be changed by the user and is also used to encrypt it's data. This password is **not** stored by **MOUNT10 AG** and **can not** be recreated by **MOUNT10 AG**!

The **NAS Backup functionality** is part of the CloudDrive product. This function allows you to automatically backup your NAS data, using a native WebDAV backup app on your Synology or QNAP NAS. With this you can ensure your NAS data is stored encrypted in SWISS FORT KNOX also.

## Concept

With the installation credentials, you'll receive from us, you can establish a connection to your cloud repository. This cloud works like a local folder or drive, with the difference that it is offsite and highly available. The data on the cloud, can be shared with 3<sup>rd</sup> party users using an URL-link. This cloud can be managed and operated using a desktop-app, a WebDAV-client or your mobile phone (paid Nextcloud mobile-app). Obviously every up to date web browser can be used also.

## Functionalities and advantages

- **SWISS FORT KNOX I + II:** Encrypted & **redundant** storage in the most secure datacentres of Europe. Your data is exclusively stored in Switzerland, guaranteed!
- **Usual MOUNT10 service:** We are providing 24/7 hours free of charge support.
- **Simple:** The access to the cloud and the usability is built as simple and as transparent as possible.
- **Encryption:** Your data will be encrypted on transport via SSL and on your cloud environment with AES 256-bit. The encryption has no negative impact on the performance. No one else except you can read your data. **With the loss of your password, your data will become unreadable!**
- **Availability:** The cloud platform is highly available and is available to you at all times.
- **Easy pricing:** Thanks to our transparent pricing you can keep control. We bill on the basis of the number of accounts and reserved storage.
